

Career Education and Work (CEW)

Standards on the

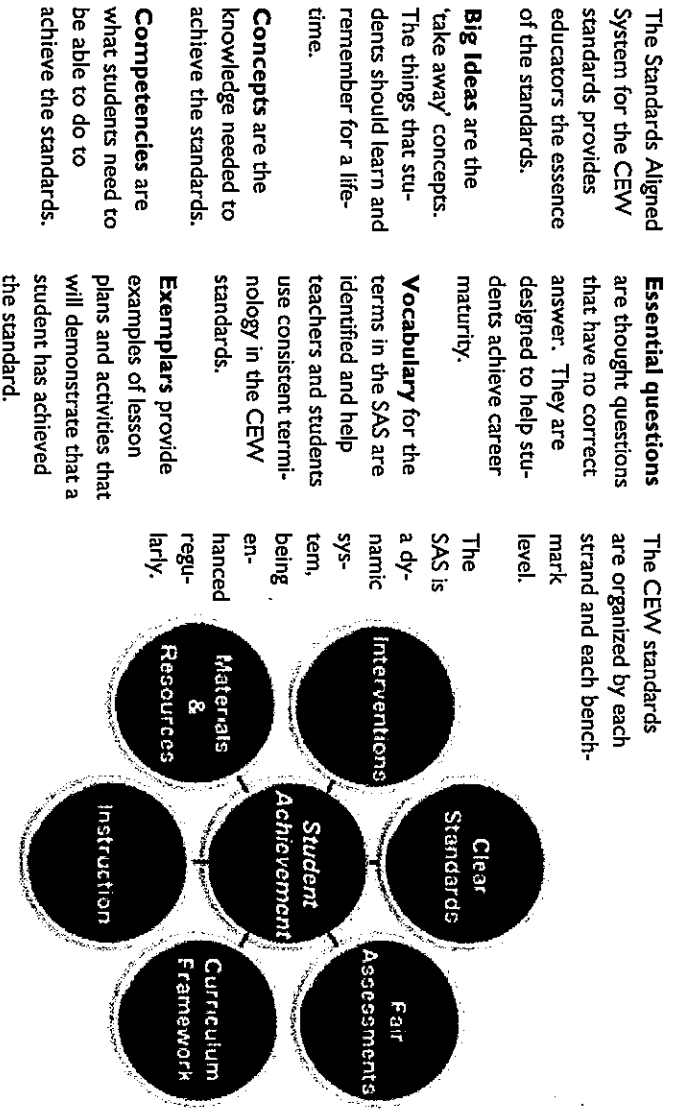

Standards Aligned System (SAS)

Benefits of SAS

- Supports the backward design curriculum development model.
- Provides links among all academic standards.
- Provides teachers specific resources to help individual children achieve PA academic skills including the CEW standards.

Fully integrated SAS system will be announced to school district teams at a three day intensive event in Hershey — December 7-9, 2009.

Curriculum Framework Built for CEW Standards

Supporting Materials for the SAS CEW Curriculum Framework		
Two resources provide additional support for the materials on the Education Hub's Standards Align System.	emplars for the SAS CEW system.	The system itself will soon be providing linkages between the other PA academic standards and the CEW standards.
PACareerStandards.com is the online toolkit that has over 40 examples of curriculum materials that support the ex-	For student and parents, the PACareerZone.com website provides tools to help students know who they are and select between a variety of occupational areas with specific information for PA.
